

LIFETEC NDIS PATHWAY

CONNECTING COMMUNITIES THROUGH ASSISTIVE TECHNOLOGY

LifeTec has structured our services to provide support on your NDIS journey... it all starts with a **FREE** NDIS Pre-plan Appointment with a LifeTec health professional.

As the NDIS rolls out across Australia, people with disability will be able to decide where and how they want to invest their funding support they receive from the Federal Government. This includes funding to acquire assistive technology (AT) and home modifications

This type of person-centred care is designed to encourage people to make their own choices about the support they need to live their potential. LifeTec shares the same goals.

- ➔ If you have AT needs, but no plan, book in with LifeTec to start this journey
- ➔ If you already have an NDIS plan in place ... visit LifeTec with your NDIS Plan to choose the right assistive technology for you.
- ➔ If you already have an NDIS Plan **and/or** your own occupational therapist, speech pathologist or physiotherapist ... visit LifeTec with your health professional.

➔ **BOOK NOW**

LifeTecTM
Live your Potential

IMAGINE the possibilities

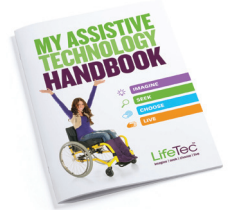

LifeTec can assist you to **imagine** the things you want to do and what products or technologies could help you achieve this.

We will assist you to explore your current roles, interests and lifestyle, as well as what might be holding you back from doing things that you love. From here we can help you to identify goals and explore assistive technology (AT) that might help.

With over 35 years experience in AT you are able to rely on us as your trusted advisor to:

- **imagine** the possibilities
- identify your goals
- LifeTec My AT Handbook is your guide

SEEK information and advice

In a Pre-plan Appointment with LifeTec, we will work with you to explore the AT options available to best enable you to achieve your goals and aspirations. You can then use this to inform your discussions with the NDIS Planner.

LifeTec will assist you to determine the best way to make your goals happen.

- **seek** out information
- explore the options

PLAN

Visit NDIS Planner to discuss your NDIS Funded Plan

Visit LifeTec with your NDIS Plan to **choose** the right AT for you

CHOOSE the best option for you

Once you have an NDIS Plan in place, LifeTec will support you to **choose** your assistive technology, through a process of assessment, trial and prescription.

Our team of health professionals including occupational therapists, speech pathologists and physiotherapists will work with you through this process.

We will assist you to determine the features of AT that are suitable for your needs and you will have the opportunity to trial the AT in your chosen environment.

LifeTec have access to a wide range of assistive technologies and help with:

- supplier liaison
- aids and equipment
- home modifications and design
- mobility equipment
- vehicle modifications
- Augmentative and alternative communication systems (AAC)

LIVE successfully with your AT

Living with your equipment involves making sure your AT is right for you. Correct set up, a plan for implementation, ongoing training, and plans for troubleshooting may be involved. A schedule for review may be developed into your plan, so you have ongoing support, and don't feel isolated once you have your equipment.

LifeTec's trained and caring health professionals will help you to:

- set up and fit your AT
- receive expert training
- seek ongoing support as your needs change and grow
- review your plan

Contact LifeTec today to arrange your NDIS Pre-plan Appointment.
