

PROJECT CYBERSPARKS

PILOT PROJECT

IMAGINE the possibilities of using technology to connect with others and do what you love.

Are your physical abilities what's stopping you?

We are looking for a small group of people to participate in a pilot project. With this project, we will work with each other to find new ways to use digital technologies to engage in our passions and interests.

You might be interested in digital games, music, sport, storytelling, photography, history or something entirely different – it does not matter what your interest is, we would love to work with you.

LifeTec, in collaboration with Montrose, TADQ and QUT, are looking for people who:

- Are under 25 and have left school
- Have a physical disability
- Live in Brisbane or are willing to travel within the Brisbane area (or can join in from home)

We'd love to talk to you, whether you're a tech whizz or completely new to technology.

If this sounds like something you would love to be part of, give us a call or pop us an email for more information.
