

APPS FOR LOCATION & SAFETY MONITORING

Safety Monitoring Apps can send alerts via text message, email and/or allow carers to monitor location using a map. Alerts can be user activated or activated by movement associated with inactivity, falls or seizures. Some tracking apps allow digital fences (geo-fence) to be created which can activate alerts when the wearer steps outside the designated area. For details on what features are available see LifeTec's Factsheet Location Tracking Devices.

APP DETAILS	FEATURES	COST	PLATFORM
 <p>Emergency + assists the caller to dial the relevant number for emergency/non-emergency situations. It displays the GPS coordinates of the phone's location that the caller can read out to the emergency operator. https://itunes.apple.com/au/app/emergency-+/id691814685?mt=8</p>	SOS Alert	Free	 
 <p>Help Me allows you to send off an SMS text to two (2) nominated 'safety' numbers. Included in the text are GPS co-ordinates from where the text was sent. https://itunes.apple.com/au/app/help-me/id510561786?mt=8</p>	ECS	\$1.29	 
 <p>Unus Tactus provides a simplified phone display with room for 4 contacts' photos and a large red help button. When the HELP button is tapped a phone call is placed to an emergency contact and an email is sent with a Google Maps link. https://itunes.apple.com/us/app/unus-tactus/id500187253?ls=1&mt=8</p>	ECS	\$12.99 Lite Free	
 <p>Epdetect monitors the wearer's movements, distinguishing between normal movement and movement associated with a Tonic-clonic seizure. If a seizure is detected, Epdetect will contact and alert your carer with your status and GPS position. https://play.google.com/store/apps/details?id=com.rd.epdetect&hl=en</p>	ECS Seizure Detector	Free	
 <p>Accident Alert detects a fall and sends an email or SMS to your chosen recipients with your current position. https://itunes.apple.com/au/app/accident-alert/id434807870?mt=8</p>	Falls	\$4.49	

APP DETAILS	FEATURES	COST	PLATFORM
 <p>Fall Detector monitors human activity, sending an alert to falls. It constantly monitors the user's motion, trying to determine when 'normal activity' is occurring, and alerting when activity indicates that the person has fallen. Alerts are sent via SMS or email with the location. https://play.google.com/store/apps/details?id=com.iter.falldetector&hl=en</p>	Falls	Free	
 <p>Fall Safety Pro monitors human activity, if movement indicating a fall is detected a notification alerts the user if they do not respond within 30 seconds that they have not fallen then an alert is sent to a pre-set contact. https://www.fallsafetyapp.com/</p>	Falls	\$4.99	
 <p>Life 360 allows you to share your location with who you want, when you want. You can receive notifications when friends and family arrive at favourite places and communicate one-to-one or to an entire group with free in-app messaging. https://itunes.apple.com/au/app/life360-family-locator-messaging/id384830320?mt=8</p>	Carer Alert GPS Tracking	Free	 
 <p>Find My Friends (apple) / Locate My Friends (android) helps you locate your friends and identifies their exact location on the app's navigational map. https://play.google.com/store/apps/details?id=com.fsp.android.friendlocator&hl=en https://itunes.apple.com/au/app/find-my-friends/id466122094?mt=8</p>	GPS Tracking	Free	 
 <p>Onwatch Smart Alert: Allows initiation of an emergency call using direct access within the app, a shortcut setting in the phone or a waterproof comm badge (a separate device with a button). Smart Guard: Is an app that a family member/ organisation can obtain to monitor the location of the Smart Alert user. http://onwatch.com.au/</p>	GPS Tracking Geo-fencing Carer Alert Monitored	Smart Alert \$14.95/month + Smart Guard \$10/,pmtj	 
 <p>Geofencer allows you to set up automatic actions on entering or exiting a geofence. Automatic action options include: turn on/off WI-FI or Bluetooth, change ring tone setting, send SMS messages, fire auto-reminders, speak, or complete a combination of actions. https://play.google.com/store/apps/details?id=com.arpacell.fencer&hl=en</p>	Geo-fencing Carer Alert	Free	
 <p>Geo-Fence enables you to set up a boundary and uses GPS to monitor and find the location of a person when they enter or exit the set boundary, showing an address and a link to a map of their current location. https://itunes.apple.com/us/app/geo-fence/id619967318?mt=8</p>	Geo-fencing	Free	

ENVIRONMENTAL MONITORING		COST	PLATFORM
	<p>Zyrtec Allergy Cast gives you access to your local pollen forecast first. You can plan ahead with the four-day calendar and even set alerts to get a heads-up when pollen counts are high. This can also be used to log symptoms and obtain tips.</p> <p>iOS, Android</p>	Free	 
	<p>Sick Weather provides real-time alerts whenever you enter a Sick Zone: areas where others have recently reported being sick.</p> <p>iOS, Android</p>	Free
