APPS FOR SAFETY MONITORING

LifeTec™
*towards easier living*

Safety Monitoring Apps can send alerts via text message, email and/or allow carers to monitor location using a map. Alerts can be user activated or activated by movement associated with inactivity, falls or seizures. Some tracking apps allow digital fences to be created which can activate alerts when the wearer steps outside the designated area.

Platform

Android   Apple   Windows

SAFETY MONITORING		COST	PLATFORM
Emergency + assists the caller to dial the relevant number for emergency/non-emergency situations. It displays the GPS coordinates of the phone's location that the caller can read out to the emergency operator. https://itunes.apple.com/au/app/emergency-+/id691814685?mt=8	SOS Alert	Free	Apple Android
Help Me allows you to send off an SMS text to two (2) nominated 'safety' numbers. Included in the text are GPS co-ordinates from where the text was sent. https://itunes.apple.com/au/app/help-me/id510561786?mt=8	ECS	$1.29	Apple Android
Unus Tactus provides a simplified phone display with room for 4 contacts' photos and a large red help button. When the HELP button is tapped a phone call is placed to an emergency contact and an email is sent with a Google Maps link. https://itunes.apple.com/us/app/unus-tactus/id500187253?ls=1&mt=8	ECS	$12.99 Lite Free	Apple
Epdetect monitors the wearer's movements, distinguishing between normal movement and movement associated with a Tonic–clonic seizure. If a seizure is detected, Epdetect will contact and alert your carer with your status and GPS position. https://play.google.com/store/apps/details?id=com.rd.epdetect&hl=en	ECS Seizure Detector	Free	Android
Accident Alert detects a fall and sends an email or SMS to your chosen recipients with your current position. https://itunes.apple.com/au/app/accident-alert/id434807870?mt=8	Falls	$3.79	Apple

Phone: 1300 885 886   **March 2015**   **www.lifetec.org.au**

	Fall Detector monitors human activity, sending an alert to falls and inactivity. It constantly monitors the user's motion, trying to determine when 'normal activity' is occurring, and alerting when activity indicates that the person has fallen. https://play.google.com/store/apps/details?id=at.spantec.securemotion.falldetector	Falls Inactivity	Free
	Life 360 allows you to share your location with who you want, when you want. You can receive notifications when friends and family arrive at favourite places and communicate one-to-one or to an entire group with free in-app messaging. https://itunes.apple.com/au/app/life360-family-locator-messaging/id384830320?mt=8	Carer Alert GPS Tracking	Free
	Find My Friends helps you locate your friends and identifies their exact location on the app's navigational map. https://itunes.apple.com/au/app/find-my-friends/id466122094?mt=8	GPS Tracking	Free
	Locate My Friends helps you locate your friends and identifies their exact location on the app's navigational map. https://play.google.com/store/apps/details?id=com.fsp.android.friendlocator&hl=en	GPS Tracking	Free
	Geofencer allows you to set up automatic actions on entering or exiting a geofence. Automatic action options include: turn on/off WI-FI or Bluetooth, change ring tone setting, send SMS messages, fire auto-reminders, speak, or complete a combination of actions. https://play.google.com/store/apps/details?id=com.arpacell.fencer&hl=en	Geo-fencing Carer Alert	Free
	Geo-Fence enables you to set up a boundary and uses GPS to monitor and find the location of a person when they enter or exit the set boundary, showing an address and a link to a map of their current location. https://itunes.apple.com/us/app/geo-fence/id619967318?mt=8	Geo-fencing	Free
