

# SMART PLUGS & LIGHTS

Smart plugs and lights can allow use of your smart device or web browser to control lights or plug functions. You can also monitor light or plug use.

Smart Plugs can be used by carers as a form of monitoring of the home environment so that they can monitor electricity/light use and turn devices on/off for safety reasons.

Smart lights can have coloured light which can be used to create specific lighting conditions and moods in a room.

## What functions can Smart Plugs/ Lights have?

**Scenes:** Complete multiple functions with the press of a single button.

**Schedules:** Pre-set automatic actions completed by the device at set times.

**Remote:** Can control the device from a location external from the home.

**Alerts:** Allows the device to send text messages or emails to a device when the device is used.
